CORE, the Center for Ongoing Renewal & Enrichment provides professional development and personal mentoring for Golden Apple Scholars of Illinois, one of the largest pre-service teacher-support programs in the nation.

Each summer, a four-to-five day residence **CORE** Conference is held at Saint Xavier University Chicago campus. Golden Apple Scholars and colleagues who have completed their student teaching join Teaching Scholars from across the state to enrich their professional lives as teachers.

The **CORE** Conference is organized, planned and facilitated by Golden Apple Scholars, Fellows, educational consultants, and colleagues who plan the proceedings to meet the professional and personal needs of classroom teachers. **CORE** classes follow Illinois standards and provide credits for Professional Development Units for State re-certification.

The **CORE** conference is open to all preK-12 teaching professionals. The conference provides seminars and fosters camaraderie, time for reflection, and the exchange of teaching techniques to enhance the art and craft of classroom teaching.
