

## **About Rick Perez**

Rick Perez is the leader of Deloitte's AI Growth Offering for the Energy, Resources and Industrials Industry.

In this role he advises clients on how to optimally manage their Digital Data supply chain (data acquisition, transport, persistence and curation) and leverage this to unlock business value via the deployment of cognitive technologies (AI, Analytics, Visualization, and Automation).

Rick has successfully developed the strategy and managed the implementation of many large enterprise data engineering and AI programs for clients across the energy value chain partnering with them to realize their AI vision and achieve business objectives.
